

Sirius Instrumentation and Controls Inc. 5721 – 99 St. Edmonton, AB T6E 3N8

To Whom It May Concern:

has been working with Sirius Instrumentation and Controls Inc. for eight years and recognizes them as one of the leaders in their field. They provide us with excellent delivery times, competitive prices and stand behind their products 100%.

In the ultra-competitive field of zero emissions chemical injection pumps, I feel they are leading the way. The stealth unit with the cover greatly reduces containment maintenance costs. Ease of set up and programing with the Star controller keeps installation costs down.

I have an excellent working relationship with Sirius Instrumentation and Controls Inc. and would recommend them to anybody.
