

Sirius Controls:

In March of 2021, _____ was installing new pumps in the _____, at which time we were introduced by _____. This was my first time to work with Sirius Pumps, _____ was very helpful showing me the functionality of these pumps along with the InSight smart glass system and he continues to educate on any new products and equipment.

Since that time, we continue to install new pumps with the help of our Account Manager _____. Any replacements or troubleshooting needed in the _____ area _____ assists without hesitation. The overall accuracy variance on our monthly reports have continued to improve significantly. The reliability of the Sirius equipment and ease of use has helped reduce the amount of field repairs. _____ is prompt to assist with any issues we have in our area, he's an excellent communicator and works diligently with the team.

Our team on the _____ continues to utilize Sirius equipment. With our recommendation and _____ hard work, we look forward continuing to use this equipment and recommend it to anyone needing reliable and accurate pumps and great service.

Best,
