Midland, TX

To Whom it may concern:

My team and I have been using Sirius chemical injection systems for a year and have been pleased with the quality and service that Sirius provides with their pumps. Since implementing these systems in the field, we have been able to minimize frequent visits to adjust rates utilizing the Connect dashboard and have a smaller equipment footprint to suffice our customers chemical injection needs with the Stack Multipoint manifold. In addition, Sirius and its staff are helpful and always considering new ways to automate and simplify chemical injection. I look forward working with Sirius on my upcoming projects

Sincerely,
